## MARCH 2012

Can you believe how quickly February flew by? Spring is here and the last three and a half months of school always go by so quickly. There is a lot left to accomplish before the year ends and our staff is preparing for high levels of academic learning in the next few months balanced with hands on, fun activities. Teachers and students are working harder than ever to achieve at the optimum level. Teachers are continuously analyzing student work and student data to plan the best lessons, to work with all students in small groups, and hone those skills students need with just a little more practice.

Thank you for the role you play in partnering with us in your child's education!

A special congratulations to one of our fantastic teachers...

Kelly Lazarus was selected as  
Cameron Park Elementary Teacher of the Year!
