The Superintendent is empowered to close the schools in the event of hazardous weather, epidemics or other emergencies, which threaten the safety or health of students or staff members.

It is understood that the Superintendent will take such action only after consultation with knowledgeable authorities and will notify the Board of Education expeditiously.

Every possible means must be taken to notify school employees, students and patrons as quickly as possible of any emergency closings.

The Superintendent shall designate a person or persons to act in their absence.
