

EMERGENCY DRILLS

Date Reviewed/Approved: 12/03/2007 Policy Number: 9260

Rescinds Policy Number: EBBC

Issued: 02/28/1979, 04/19/2004

The Board of Education and school personnel are aware of the fact that emergencies arise in which health and safety precautions must be taken. Principals will develop emergency management plans to cope with potential emergency. The Principal has the responsibility to train the staff as to their responsibilities in emergency response. School staff shall regularly remind students of procedures to follow in the event of emergencies.

The training of staff and students in emergency procedures is to be done with involvement of the local and state law enforcement and emergency management officials. The Principal will annually notify the parents, as well as the public, of the emergency management plans implemented by the school.
